

Power Consumption Meter

Power Input

- DC-Jack: 7-12V
- Batteries: 2x18650

Measurements:

- Voltage: 0-26V @3.2A (max)
- Accuracy: ~1mA

Notes:

- Measure only one device at a time.
- Front side: device under test.
- Rear side: device under test power source.
- Internal Connections:
 - USB-A: power+data
 - USB-B mini & micro: power-only
 - DC-Jacks: power-only
